### SUMMARY

Veteran starter at QB for 12 years and former Pro Bowl selection with playoff experience. A tall, solid build for a QB with better than average arm strength. Throws a tight spiral with a quick release and decisiveness. Won't hold onto the ball too long. Can effectively make deep, intermediate, and short throws. Will take shots downfield and will hit check downs when the pocket breaks. Will climb in the pocket and has shown good play strength with an ability to pull away from DL grabbing him in the pocket. Won't take unnecessary hits and operates with poise throughout the entire game. Keeps emotions calm during the good and the bad times in a game. Good knack for getting the ball to the offensive playmakers. Capable of making throws into tight windows over the middle. Struggles to escape the pocket and scramble away from rushers and has not demonstrated ability to tuck the ball away and run for first downs. Suffered a torn ACL in 2005 which might currently hamper foot speed and ability to escape the pocket. Has a tendency to force throws into bracketed double coverage in the middle intermediate and deep zones. Overall, a starting QB who you can win with. Operates best from the pocket with the capability to makes throws to all areas of the field. He can be a pocket passer in West Coast offense where he needs to get the ball out of his hands quickly, or he could thrive in an offense with a strong running game and an effective downfield play-action passing game.
